Assetz Capital Privacy Notice.

1. Introduction

Assetz Capital is committed to protecting the information that we hold about you. We also wish to be transparent about how we collect, hold, retain and use your information in line with applicable laws and regulation.

This privacy notice describes:

- What information we collect from you and hold about you.
- How long we retain this information and why.
- Who we may share your information with and why
- How we may use your information and our bases for doing so.
- Our use of cookies.
- Where we may send your information.
- Your rights in relation to this information.

Please note that this privacy notice covers both lenders and borrowers but certain aspects of this notice may apply only to one of those groups: where this is the case, we indicate this clearly. For example:

For our lenders, Assetz SME Capital Limited, trading as Assetz Capital, is the Data Controller for your personal data. This means it is responsible for deciding how your personal data is used.

For our peer-to-peer lending platform borrowers, Assetz SME Capital Limited, trading as Assetz Capital, is the Data Controller for your personal data if your loan application comes to us directly (i.e.: there is no broker / intermediary involved). This means it is responsible for deciding how your personal data is used in these circumstances.

For our Coronavirus Business Interruption Loan Scheme (“CBILS”) borrowers, Assetz SME Capital Limited, trading as Assetz Capital, and Assetz Capital Lending Limited are joint Data Controllers for your personal data if your CBILS loan application comes to us directly (i.e.: there is no broker / intermediary involved). This means they are responsible for deciding how your personal data is used in these circumstances. Where an institutional lender considers you for a CBILS loan, that institutional lender will be a Data Controller and will also be responsible for deciding how your personal data is used in respect of processing your CBILS loan application.

For all borrowers, where a broker / intermediary is involved, Assetz Capital typically will receive information initially from that broker / intermediary who will have consent from the borrower to pass their data to third parties for the purpose of sourcing finance. At this stage the broker / intermediary is the Data Controller and Assetz Capital is acting as a Data Processor under the consent given by the borrower to the broker / intermediary. If Assetz Capital is selected as the source of lending and contracts with the borrower, Assetz Capital then becomes a joint Data Controller with

Assetz Capital Privacy Notice.

the broker / intermediary. If the loan is a CBILS loan, Assetz Capital Lending Limited also becomes a joint Data Controller.

The scope of this privacy notice is limited to personal data. "Personal data" is information that relates to an identifiable natural person who can be directly or indirectly identified from that information, for example, a person's name, address, date of birth, an identification number, location data and so on.

Please note that Assetz Capital will never sell your personal data to a third party.

Assetz Capital Privacy Notice.

2. Information we collect from you and hold about you

The information that we hold about you typically will come from you directly, often when you register as a lender on the platform or when you apply for a business loan as a borrower. The information that we collect from you will include the following:

- Your personal details (such as name, date of birth, and possibly other information required to confirm your identity in accordance with applicable laws and regulation);
- Your contact details (such as e-mail address, postal address, telephone number, mobile number).
- Transactional details relating to your Assetz Capital account (such as deposits and withdrawals, details of investments in loans; **for borrowers**, payments you make and receive);
- Financial information (such as bank account details to process payments or withdrawals; **for borrowers**, other financial information submitted in support of a loan application).
- **For borrowers only:** Details about your health (but only if relevant to and strictly necessary for the processing of your loan application or the monitoring and servicing of a loan);
- **For borrowers only:** Information about criminal convictions and offences (but only if relevant to and strictly necessary for the processing of your loan application or the monitoring and servicing of a loan);

If you choose not to provide information that we tell you is essential for the creation or maintenance of a lender account or for the processing of a loan application or the monitoring and servicing of a loan, we may be unable to provide you with the requested service(s) or it may affect our ability to perform our obligations under an agreement with you. Where this is the case we will tell you and explain why.

If you give us information about other people (such as asking us to allow another person to access or operate your account on your behalf whether by Power of Attorney or other means) which we will use in the provision of our services, you confirm that they are aware of this privacy notice and the information contained herein regarding the use of their data.

In addition to information which you give to us directly, we will also hold information we collect from other sources. This will include:

- The way you use your account(s) with us (such as information about the specific products, features or services you use, the way you use our web site, mobile applications, telephone services, Live Chat).
- Any other interactions you have with us (such as forum use, Q&A participation, event attendance, through social media or other channels);
- We may collect details from devices you use when connecting to our web site or through mobile apps (such as identifying the IP address a device connects from, the device type and the way you interact with our web site or mobile app

Assetz Capital Privacy Notice.

- this information may be used in the interests of the security of your account and/or to allow us to improve our service and offering to you);
- Records of checks we conduct to comply with legal and/or regulatory requirements (such as checks to confirm identity in line with Money Laundering Regulations).
- **For borrowers only:** Information from fraud prevention and credit reference agencies, who may check the information against other databases – public or private – to which they have access. Please see the separate section later in this document regarding fraud prevention and credit reference agencies.
- **For borrowers only:** Information about you which is publically available (either online or elsewhere) which is relevant to a loan application of the monitoring or servicing of a loan;
- People or organisations who you appoint to act on your behalf;
- Other financial institutions who may allow you to access your Assetz Capital account via their web site or app using an API or some other interface where the provision of their service to you requires them to provide information to us.

Assetz Capital Privacy Notice.

3. How long we keep the information we collect from you and hold about you

We retain your information for as long as we continue to have a relationship with you. **For a lender**, this means as long as you continue to have an account with Assetz Capital. **For a borrower**, this means as long as you have a loan or loans funded by our platform.

When our relationship with you has come to an end (for example, following the closure of a lender's account or the repayment of a borrower's loan) we will only retain your information for as long as we have a lawful reason for doing so. Similarly if a borrower's application for a loan is declined or a lender decides not to proceed with a registration we will only retain data for as long as it is legitimate for us to do so.

Once our relationship with you has ended we will retain information that allows us to:

- Comply with record-keeping requirements under law or regulation (for example, as required under the Money Laundering Regulations);
- Deal appropriately with any complaints regarding the services we have provided.
- Defend (or potentially bring) any existing or future legal claims;
- Maintain records of anyone who does not want to receive marketing from us to prevent us from inadvertently ignoring your wishes in the future.

The period over which we may lawfully retain information is often linked to the record-keeping requirement (for example, five years from the end of the relationship in the case of checks made to comply with the Money Laundering Regulations) or to the amount of time available to bring a legal claim.(typically six years for claims in relation to a contract).

We would retain your information after this time only if we are required to do so to comply with law or regulation, or if there are complaints or claims outstanding which reasonably require your information to be retained for longer.

If we do retain your information for lawful reasons we will continue to ensure that your privacy is protected.

Assetz Capital Privacy Notice.

4. Who we may share your data with and why

We will protect your information and keep it secure and confidential but we may share it with third parties (who generally also have to protect it and keep it secure and confidential) under certain circumstances.

Those with whom we may share your data include:

- Your advisers (for example, your accountant, lawyer or other professional adviser) if you have properly authorised them to represent you.
- **For borrowers**, your broker or intermediary if one is acting for you.
- **For borrowers**, your information is shared with prospective lenders in order to source funding for you. For CBILS loans only, this will include guarantors and other relevant parties involved in the provision of CBILS loans – please see your CBILS borrower agreement for further information.
- **For lenders**, any other person who you have properly authorised to use your Assetz Capital account or to give us instructions on your behalf (such as under a Power of Attorney).
- Banks, payment service providers and other financial institutions that allow us process payments to and from your Assetz Capital account in accordance with your instructions, or **for borrowers**, payments in relation to a loan.
- Other financial institutions who you (or a third party properly authorised to give instructions on your account) ask us to share information with (for example, if you authorise, set up and use another company's web portal or app to access and manage you Assetz Capital account via an API).
- UK authorities, law enforcement agencies and regulators in connection with the execution of their duties (and, where required to do so, their overseas equivalents).
- HM Revenue and Customs ("HMRC") insofar as we are required to do so by law.
- Our service providers (including their sub-contractors). This may include, for example, third parties who help us to perform identity verification checks or who help us to communicate with you and, **for borrowers**, a professional such as a Monitoring Surveyor. Where we use service providers we ensure that they protect your data as we would.
- **For borrowers**, anyone to whom we may transfer our rights and duties in respect of the agreement between us.
- Other companies in the Assetz Group (for example, to offer you products or services which may interest you and for marketing purposes, provided you have consented to receive marketing communications from us).
- **For borrowers only:** Fraud prevention agencies – please see the section on the use of fraud prevention and credit reference agencies for details.
- **For borrowers only:** Credit reference agencies – please see the section on the use of fraud prevention and credit reference agencies for details.

Assetz Capital Privacy Notice.

Please note that If information is shared at your request with a third party we will have no control over how that information is used. You will need to understand and agree the scope of any such use directly with the third party before making the request.

5. Use of Fraud Prevention and Credit Reference agencies

This section is applicable to **borrowers only**.

When you apply to Assetz Capital for a business loan we perform credit checks with one or more credit reference agencies and fraud prevention agencies. To do this, we supply information about you and/or your company to the credit reference agencies and fraud prevention agencies and they give us information about you and/or your company which we use to assess your loan application.

Fraud prevention agencies

When you apply for a loan the personal information we collect from you will be shared with fraud prevention agencies who will use it to prevent fraud and money-laundering and to verify your identity. If fraud is detected, you could be refused certain services or finance. Further details of how your information will be used by us and these fraud prevention agencies, and your data protection rights, can be found by reading the full notice which is available upon request when applying for a loan from Assetz Capital – please ask your Assetz Capital contact for a copy.

Credit reference agencies

When you apply for a loan the information we collect from you will be shared with one or more credit reference agencies. The three main credit reference agencies in the UK operate in accordance with the Credit Reference Agency Information Notice (“CRAIN”) which describes how they use and share personal data. The CRAIN is available on each of the credit reference agency’s web sites:

www.callcredit.co.uk/crain

www.equifax.co.uk/crain

www.experian.co.uk/crain

These are provided as links as the CRAIN is an external document which will be updated independently of this privacy notice.

For our CBILS borrowers, the institutional lenders who fund our CBILS loans may make their own enquiries of credit reference and fraud prevention agencies and conduct any additional due diligence necessary for their processing of your CBILS loan application.

6. How we use your information and the bases upon which we do so

By law, we are allowed to process your personal data only if we have a proper reason to do so. The law says we must have one or more of the following reasons:

- Consent – you have given us clear consent for us to process your personal data for a specific purpose.
- Contract – the processing is necessary to fulfil a contract we have with you, or because you have asked us to take specific steps as a precursor to entering into a contract.
- Legal obligation – the processing is necessary for us to comply with the law.
- Legitimate interests – we have a business or commercial reason of our own to use your information, known as a legitimate interest, which we tell you about and which does not unfairly go against your interests.

This section summarises our processing and our reasons for doing so.

7. Automated processing of your data

Assetz Capital makes very limited use of automatic processing of your data in the provision of our services to you: Example of automatic processing include:

- Identify verification, anti-money laundering and sanctions checks.
- Screening of individuals who may be classed as “Politically Exposed Persons”.
- Transaction monitoring for the purposes of preventing fraud and other forms of financial crime.
- Determining if an account is dormant.

In all instances this automated processing does not lead to automated decision-making: the outcomes of the automated processing are reviewed by a human being who will make any necessary decisions.

8. Use of Cookies

For information about how we use cookies, please see our separate Cookies Policy [here](#).

Assetz Capital Privacy Notice.

9. Sending your data outside of the European Union

Assetz Capital (and its service providers) hold your data securely in the UK and EU. We do not, in the normal course of business, transfer your information outside of the EU. Should we ever need to transfer data outside of the EU in the normal course of business we would only do so if the organisation receiving the data had provided adequate safeguards (where your rights would be enforceable and effective legal remedies available following the transfer) or where you had provided informed consent.

In the event that we were forced to share data with an organisation outside of the EU and in a jurisdiction that the European Commission does not regard as having adequate levels of protections for personal data – for example because we were required by law to disclose information – we would seek to ensure that the recipient organisation agreed to protect the data to levels equivalent to ours and seek to put in place appropriate safeguards to ensure that the data was adequately protected. If that was not possible we would ensure the sharing of the data was lawful.
